

# Letter of Provisional Authorization

Authorization is granted to the Owner and/or Facility Manager as shown below, for the purpose of rebroadcasting the Snohomish County 911 public safety frequencies using class "A" bi-directional amplifiers (BDA's) or Distributive Antenna Systems (DAS). Class "B" BDA/DAS systems will not be granted authorization to retransmit on the Snohomish County 911 radio system.

Facility Name: Address: City:                                  State:                  Zip Code: Buisness Phone:	BDA/DAS Manufacturer:  BDA/DAS Model:  Latitude of Donor Antenna:  Longitude of Donor Antenna:  Donor Antenna Height:

This form is authorization to rebroadcast on the Snohomish County 911 radio frequencies. This is not approval from the Fire Marshall or Authority having Jurisdiction that the system meets necessary codes or coverage requirements. Snohomish County 911 and the Fire Marshall reserve the right to make on-site inspections at any time. If problems are believed to exist, the Owner and/or Facility Manager shall power-off their DAS or BDA equipment at Snohomish County 911's request. Snohomish County 911 also reserves the right to suspend or terminate this agreement at its discretion.
